Preface & Introduction

Preface

The Office of the State Auditor (OSA) is pleased to present this Investment Disclosure Report for Minnesota's public pension plans for Reporting Year 2000.

The OSA collected and reviewed investment data to compute time-weighted rates of return (net of all fees and costs) for 718 public pension plans with combined assets of \$47 billion. Since investment returns play a key role in the financial status of these public pension plans, this report monitors and assesses their individual investment performance efforts for 2000.

State Auditor Judith H. Dutcher and her staff express sincere appreciation to the many dedicated public pension plan administrators, volunteer firefighter relief association officers, auditors, investment advisors and municipal personnel who contributed their valuable skills and time to the preparation of the information contained in this report.

If you have questions or comments to improve future editions of this report, please contact the:

Introduction

Investments play a key role in financing pension benefit obligations. The year 2000, unlike previous years, was not a profitable one. A downturn in the economy, and in equity markets in particular, caused an actuarial loss for most of the public pension plans.

An actuarial gain or loss is obtained by comparing investment performance to statutory assumed rates of return. An actuarial gain or loss determines whether:

- 1) Underfunded public pension plans are making progress toward reducing their deficits, and
- 2) Public pension plans with surpluses can finance benefit improvements or tolerate contribution reductions.

If a public pension plan exceeds the statutory assumed rate of return, all else being equal, an actuarial gain is generated, potentially relieving pressure on contributions and/or freeing up assets to finance benefit improvements. If a public pension plan does not meet the statutory assumed rate of return, an actuarial loss occurs placing greater pressure on contributions.

Reporting Requirements

Public pension plans are required to report certain investment information to the OSA under Minn. Stat. § 356.219. They must also provide the OSA with their investment policy statements and any subsequent policy amendments with their effective dates.

Public pension plans with a market value of *at least* \$10 million in assets are required to report on a monthly, total fund, and investment account, investment portfolio or asset class basis. These plans must also submit total fund, time-weighted rates of return available from index-matching investments and an explanation as to which indices were used and why those indices were appropriate. Public pension plans with a market value of *less than* \$10 million in assets are required to report on a quarterly, total fund basis. Comparative index-matching rate of return data is not required of these public pension plans.

The only exception to these investment reporting requirements applies to public pension plans that are fully invested through the State Board of Investment (SBI). A public pension plan is fully invested under Minn. Stat. § 356.219, subd. 1(b), if on December 31 of any year, all of the assets of the plan, “beyond sufficient cash equivalent investments to cover six months expected expenses,” are invested through the SBI. If the public pension plan certifies to the OSA that it is fully invested, reporting responsibility transfers to the SBI.

Data Sources

This report represents a compilation of the investment performance data reported by public pension plan representatives or investment advisors and independent public accountants who work on behalf of the plans. The market value and cash flow data provided to the OSA was reviewed to calculate certain statistics including time-weighted rates of return on investments for the individual public pension plans.

Report Structure

The structure of this report includes two sections that cover 704 public pension plans with less than \$10 million in assets and 14 public pension plans with at least \$10 million in assets. Both sections include summary data and discussions of overall investment performance.

Since the investment policy statements for the majority of the 704 public pension plans with less than \$10 million in assets do not include asset allocation *policy* targets, only their *actual* asset allocation data is provided in this report. The rates of return for these public pension plans are provided as a comparison to their 5% statutory assumed rate of return.

Nine of the 14 public pension plans with at least \$10 million in assets are defined *benefit* plans. In general, they have investment policy statements that are comprehensive with clearly defined objectives and parameters on most investment activities.

The asset allocation policy targets of these defined benefit plans are listed next to their actual asset allocations on the defined benefit plan detail pages at the end of this report. Their rates of return are compared with their individual statutory assumed rates of return and self-selected investment performance benchmarks.

The remaining five defined *contribution* plans with at least \$10 million in assets do not have statutory assumed rates of return. Therefore, similar comparisons cannot be provided on the defined contribution plan detail pages at the end of this report.

Information on Broad Market Indices

An index is a statistical composite that measures changes in the economy or financial markets. The select group of indices listed below may be used as a point of reference when analyzing the investment performance of a public pension plan for 2000.

- ! **Wilshire 5000 Stock Index** - This index is the broadest index for the U.S. stock market and includes all stocks traded over the counter and on exchanges, including the Standard & Poor's 500 Index.
- ! **Standard and Poor's 500 Index (S&P 500)** - This index is designed to measure performance of the broad domestic economy through changes in the value of 500 stocks representing all major industries. It is widely considered the benchmark for large-stock investors.
- ! **Russell 2000** - This index is widely used as a measure of small company stocks in the U.S.
- ! **Lehman Bros. Aggregate** - This index represents high quality, investment grade treasury/agency, corporate, and mortgage-backed securities in the U.S.
- ! **Lehman Bros. Government/Corporate** - This index represents a mix of U.S. high quality, investment grade government and corporate bonds.
- ! **Lehman Bros. Corporate Bonds** - This index represents a mix of U.S. high quality, investment grade corporate bonds.
- ! **Lehman Bros. Government Bonds** - This index represents U.S. government bonds.
- ! **Morgan Stanley Capital International Index of Europe, Australia and the Far East (EAFE)** - This index represents a measure of 20 international stock markets located in Europe, Australia and the Far East.
- ! **Salomon Non-U.S. Government Bonds** - This index represents a measure of non-U.S. government bonds.
- ! **90-Day U.S. Treasury Bills** - This index represents a measure for U.S. Treasury bills with an average maturity date of 90 days. The index may be used as a measure for short-term cash accounts, such as cash equivalents, checking, savings, money market accounts, and commercial paper.

Table 1 on the following page shows one-year and four-year rates of return reported for these broad market indices for the year ending December 31, 2000.

Table 1 - Returns for Broad Market Indices

Year Ending December 31, 2000

| Stocks | One Year | Four Year |
|--|-----------------|------------------|
| Wilshire 5000 Stock Index - <i>All size U.S. stocks</i> | (10.9)% | 15.6 % |
| S&P 500 - <i>Large company U.S. stocks</i> | (9.1)% | 17.2 % |
| Russell 2000 - <i>Small company U.S. stocks</i> | (3.0)% | 8.8 % |
| Bonds | | |
| Lehman Bros. Aggregate - <i>All U.S. bond types</i> | 11.6 % | 7.2 % |
| Lehman Bros. Government/Corporate - <i>U.S. Government and corporate bond mix</i> | 11.9 % | 7.1 % |
| Lehman Bros. Corporate Bonds | 9.4 % | 6.4 % |
| Lehman Bros. Government Bonds | 13.2 % | 7.4 % |
| International Securities | | |
| Morgan Stanley Capital International Index of Europe, Australia and the Far East (EAFE) - <i>International stock</i> | (14.2)% | 7.4 % |
| Salomon Non-U.S. Government Bonds - <i>International bonds</i> | (2.6)% | 1.0 % |
| Short-term & Cash | | |
| 90-Day U.S. Treasury Bills - <i>Cash, savings, checking and money markets</i> | 6.1 % | 5.3 % |
| General Price Level | | |
| Change in Consumer Price Index (CPI-Urban) | 3.4% | 2.3% |

**Public Pension Plans
with *less than*
\$10 Million in Assets**

Plan Performance Information

This section includes summary and individual investment performance information for 704 public pension plans with less than \$10 million in assets. Nearly 71% of these public pension plans are volunteer firefighter relief associations with less than \$500,000 in assets and fewer than 30 members. They are required to report to the OSA on a quarterly, total fund basis.

Table 2 shows all of these public pension plans in groups relative to the percentage of their assets invested with the SBI as of December 31, 2000.

Table 3 provides individual public pension plan data including:

- 1) Public pension plan type and membership,
- 2) Beginning assets, major revenue sources and ending assets,
- 3) Asset allocation percentages,
- 4) Time-weighted rates of return for 1999, 2000 and the four-year period from 1997 to 2000, and
- 5) Percentile rankings of the four-year rates of return.

Assumed vs. Actual Rates of Return

A downturn in the economy, and in equity markets in particular, caused a decline in funding levels for most of the 704 public pension plans with less than \$10 million in assets. In 2000, 82% of these public pension plans did not meet the 5% statutory assumed rate of return specified under Minn. Stat. § 356.215, subd. 4d. The weighted-average rate of return for the group was a negative 1.4%, or a total net investment loss of \$4.3 million.

Four-Year Rates of Return

The OSA has collected data for these public pension plans since 1997. The time-weighted rate of return for these public pension plans during the four-year period from 1997 to 2000 was 8.7%, or 3.7% above the statutory assumed rate of return of 5%. The total actuarial gains for the four-year period were approximately \$39 million.

Table 2 - Plan Summary Data

Plans with *less than \$10 Million in Assets*

| Profile Data | Plans Grouped by % of Assets with SBI | | | All Plans |
|------------------------------|---------------------------------------|------------|-------------|-------------|
| | 75% or More | 1% - 74% | Zero % | |
| Number of Plans | 74 | 133 | 497 | 704 |
| Number of Members | 2,314 | 3,892 | 13,572 | 19,778 |
| Total Assets 1/1/2000 | 53,041,490 | 72,112,003 | 201,853,713 | 327,007,206 |
| State Aid | 1,789,800 | 2,805,213 | 8,174,049 | 12,769,062 |
| Municipal Contributions | 447,213 | 975,062 | 3,158,324 | 4,580,599 |
| Net Investment Income (Loss) | (2,439,263) | (606,703) | (1,275,510) | (4,321,476) |
| Total Revenue | (118,538) | 3,325,432 | 10,550,647 | 13,757,541 |
| Total Assets 12/31/2000 | 47,989,412 | 70,853,276 | 200,232,244 | 319,074,932 |
| Funded Ratio ¹ | 103% | 104% | 104% | 104% |

Asset Allocations

| | | | | |
|--------------------|-----|-----|-----|-----|
| Stock ² | 68% | 54% | 52% | 54% |
| Bond ² | 26% | 28% | 23% | 25% |
| Cash | 6% | 17% | 22% | 19% |
| Other ³ | 0% | 1% | 3% | 2% |

Rates of Return (ROR)

| | | | | |
|-----------------------------|--------|--------|--------|--------|
| 4 Year Period (1997 - 2000) | 7.2% | 9.8% | 8.4% | 8.7% |
| Year Ended 12/31/2000 | (5.3)% | (0.8)% | (0.7)% | (1.4)% |
| Year Ended 12/31/1999 | 14.7% | 12.7% | 12.2% | 12.7% |
| Year Ended 12/31/1998 | 17.7% | 13.6% | 11.1% | 12.2% |
| Year Ended 12/31/1997 | 18.4% | 15.2% | 12.6% | 13.9% |

Performance

| | | | | |
|------------------------------------|-------------|-------------|--------------|--------------|
| Assumed Rate of Return | 5.0% | 5.0% | 5.0% | 5.0% |
| Target in Dollars | 2,652,074 | 3,605,600 | 10,092,686 | 16,350,360 |
| Actuarial Gain/Loss: ROR less 5.0% | (10.3)% | (5.8)% | (5.7)% | (6.4)% |
| Actuarial Gain/Loss in Dollars | (5,091,337) | (4,212,303) | (11,368,196) | (20,671,836) |

1 Funded Ratio = Total Assets divided by Total Liabilities.

2 Stock and Bond include domestic and international securities.

3 Other includes real estate, venture, limited partnerships, and fixed and variable annuities.

Notes to Table 3

Table 3 includes, in alphabetical order, investment performance and other data on 704 public pension plans with assets of *less than* \$10 million as of January 1, 2000. A description of the data in selected columns follows:

| Column Heading | Description | |
|----------------------------|--|---|
| Plan Type | LS = Lump Sum MO = Monthly | DC = Defined Contribution M/L = Monthly / Lump Sum |
| Members | Total members. | |
| Beginning Assets 1/1/00 | Market value of assets plus net accruals at 1/1/00. | |
| State Aid | Total of all fire state aid and police state aid received or receivable. | |
| Municipal Contrib | Municipal contributions received or receivable. | |
| Investment Earnings | Realized and unrealized investment gains/losses less investment advisor fees. | |
| Ending Assets 12/31/00 | Market value of assets plus net accruals at 12/31/00. | |
| % of Assets @ SBI | Percent of assets invested through the State Board of Investment at 12/31/00. | |
| Allocations @ 12/31/00 | Stock = Domestic and international. Bond = Domestic and international. Cash = Certificate of deposits, money market accounts, money market mutual fund shares, etc. Other = Real estate, limited partnerships, venture capital, etc. | |
| Rates of Return | Actual time-weighted rate of return for 1999, 2000, and the four-year period ending December 31, 2000. | |
| Rank (%-ile) / 4 Yr Return | Percentile ranking among all 704 plans based on four-year rate of return. | |
| | <i>Example:</i> Adrian's rank = 75% That means Adrian's four-year rate of return put the plan in the 75th percentile of all plans (74% of all plans had a lower rate of return). | |

Notes to Table 3 - Continued

Table 3 includes rates of return for 1999, 2000 and the four-year period from 1997 to 2000. The four-year rates of return for the following public pension plans are reported on a different basis than those for the other public pension plans.

| | | |
|------------------|------------------|--------------|
| ALMELUND | HAMEL | RANDALL |
| BARNUM | HOLLAND | RANDOLPH |
| BRICELYN | LAKE KABETOGENMA | ROSEVILLE |
| BROOKLYN PARK | LITTLEFORK | SCHROEDER |
| DAWSON | MAPLEVIEW | SOLWAY TWP |
| DOVER | MCINTOSH | TOFTE |
| EAST GRAND FORKS | MEDICINE LAKE | WARROAD AREA |
| EDINA | NICOLLET | WILLIAMS |
| GOODLAND | NORTHROP | |

These public pension plans were fully invested with the SBI for at least one year during 1997 to 2000, but were not fully invested with the SBI during the entire four-year period. For these plans, the OSA calculated their cumulative rate of return as the sum of the annual rates of return weighted by beginning assets divided by the sum of beginning assets for each year of the four-year period.

Table 3 - Plan Detail Information

| Pension Plan Name | Plan Type/ Members | Beginning Assets 1/1/00 | Major Revenue Sources | | | Ending Assets 12/31/00 | % of Assets @ SBI | Allocations @ 12/31/00 | | | | Rates of Return | | | Rank (%-ile) |

Legend

- A = The rate of return for these plans was between -0.044% and 0.044%. However, due to rounding and space limitations, the rate of return displayed in this report would have shown as 0.0%.
- B = Gun Flint Trail has no rate of return because it does not keep its assets in interest bearing accounts.
- C = The four-year rate of return (ROR) is calculated for reporting years 1997 through 2000. These five reliefs did not exist for all four years, precluding a four-year rate of return and rank:
- Dakota & Rushmore - First reporting year 2000. One-Year RORs: 1.6% and 3.6%, respectively.
 - Gun Flint Trail, Meadowlands & Pequaywan - First reporting year 1999. Two-Year RORs: No rate of return, 0.9% and 1.2%, respectively.
- D = No rate of return is available as these plans were established after 1999.

**Public Pension Plans
with *at least*
\$10 Million in Assets**

Plan Performance Information

This section provides summary and detailed investment performance information for the 14 public pension plans with at least \$10 million in assets. Once a public pension plan reports as a plan with at least \$10 million in assets, it must continue to report in this manner even if its assets drop below \$10 million in a subsequent year.

Public pension plans with at least \$10 million in assets report to the OSA on a monthly, total fund, and investment account, investment portfolio or asset class basis. State law requires these public pension plans to submit: the total time-weighted rate of return from index-matching investments, an explanation of indices that were used and why they were appropriate, and a written investment policy statement and any subsequent amendments with their applicable effective dates.

Table 4 lists the individual assets of the 14 public pension plans that total \$46.9 billion. Tables 5 and 6 contain defined benefit plan data.

Defined Benefit Plans

In 2000, the nine defined benefit plans did not meet their individual statutory assumed rates of return; however, the majority of these plans exceeded their selected investment performance benchmarks. The difference between the rates of return provided by the defined benefit plans and those calculated by the OSA differed by no more than 0.4%. Thus, the rates of return provided by the defined benefit plans appear to present a reliable gauge of investment performance for trustees, members and policymakers.

Table 5 compares the rates of return of the defined benefit plans with their statutory assumed rates of return and their self-selected investment performance benchmarks. Table 6 compares the total rates of return reported by the defined benefit plans to those calculated by the OSA.

Defined Contribution Plans

Five of the 14 public pension plans with at least \$10 million in assets are defined contribution plans sponsored by the Minnesota Historical Society, the University of Minnesota and the Minnesota State Colleges and Universities. As can be seen on the defined contribution plan detail pages at the end of this report, their investment performance also reflected the changes in the economy.

Since the defined contribution plans consist of self-directed individual member accounts, their rate of return information is not comparable to that of the defined benefit plans. For this reason, the OSA reviews defined contribution plan data for logical consistency and completeness but does not independently verify the rates of return as it does for defined benefit plans. The defined contribution plans are not included in Tables 5 and 6.

Table 4 - Assets Held by Individual Plans

Plans with *at least \$10 Million* in Assets

| Minneapolis Fire | 344,254 | 312,051 | (2.7)% | 6.0% | (1.8)% |
| Minneapolis Police | 417,438 | 380,303 | (2.0)% | 6.0% | (3.7)% |
| Minneapolis Teachers | 1,099,143 | 1,000,205 | (6.0)% | 8.5% | (4.3)% |
| St. Paul Teachers | 850,360 | 833,473 | (0.2)% | 8.5% | (4.0)% |
| State Board of Investment - Basic Fund | 21,365,068 | 19,806,795 | (1.8)% | 8.5% | (1.9)% |
| State Board of Investment - Post Fund | 20,768,286 | 20,152,752 | (3.8)% | 8.5% | (4.0)% |
| Total ² | <u>\$46,918,284</u> | <u>\$44,432,896</u> | (2.7)% | 8.3% | (2.9)% |

¹ The Minneapolis Employees Retirement Fund has a different statutory assumed rate of return for its active and retired funds that are 6% and 5%, respectively. The lower rate is used.

² Total rate of return percentages are calculated using the individual plan rate of return weighted according to 1/1/00 plan assets.

Table 6 - Reported Rate of Return Comparisons

Plans with *at least* \$10 Million in Assets

The 2000 rates of return for five of the nine defined benefit plans listed below match the rates of return calculated by the OSA. The rates of return for the other four defined benefit plans vary from the OSA-calculated rates of return by no more than 0.4%.

| Defined Benefit Plans | Plan Rate | OSA Rate |
|--|------------------|-----------------|
| Bloomington Fire | (3.9)% | (3.9)% |
| Duluth Teachers | (1.5)% | (1.6)% |
| Minneapolis Employees | (1.5)% | (1.3)% |
| Minneapolis Fire | (2.7)% | (2.7)% |
| Minneapolis Police | (1.6)% | (2.0)% |
| Minneapolis Teachers | (6.0)% | (6.0)% |
| St. Paul Teachers | 0.1 % | (0.2)% |
| State Board of Investment - Basic Fund | (1.8)% | (1.8)% |
| State Board of Investment - Post Fund | (3.8)% | (3.8)% |

| Domestic Equities | Domestic Equities | \$ 10,797,558 | \$ (73,882) | \$ (1,154,542) | \$ 9,569,134 | (11.1)% |
| International Equities | International Equities | 3,519,211 | (328,502) | (466,630) | 2,724,079 | (14.3)% |
| Bonds | Bonds | 5,639,041 | 495,178 | 719,107 | 6,853,326 | 11.8 % |
| Real Estate | Real Estate | 78,557 | 218 | 3,236 | 82,011 | 4.4 % |
| Venture | Venture | 188,471 | 70,556 | 52,819 | 311,846 | 23.8 % |
| Resources | Resources | 46,283 | (8,593) | 21,319 | 59,009 | 53.6 % |
| Cash & Disbursement Account ⁴ | Cash | 499,165 | 52,735 | 1,447 | 553,347 | (0.5)% |
| Miscellaneous Expense Account | | 0 | 284 | (284) | 0 | |
| Total | | \$ 20,768,286 | \$ 207,994 | \$ (823,528) | \$ 20,152,752 | |

⁴ The Cash & Disbursement Account includes items such as short-term investments and income generated from these investments, miscellaneous income and expenses that are not attributable to a specific asset class category (e.g. class action proceeds, securities lending income, and consulting or vendor services expenses), participant contributions, retiree benefit payments, and transfer payments between asset classes. The rate of return presented reflects all of these items within this account, whereas the rate of return on short-term investments alone is 6.8%, according to the SBI.
